

POWER TO BE WORKSHOP

23.6.17

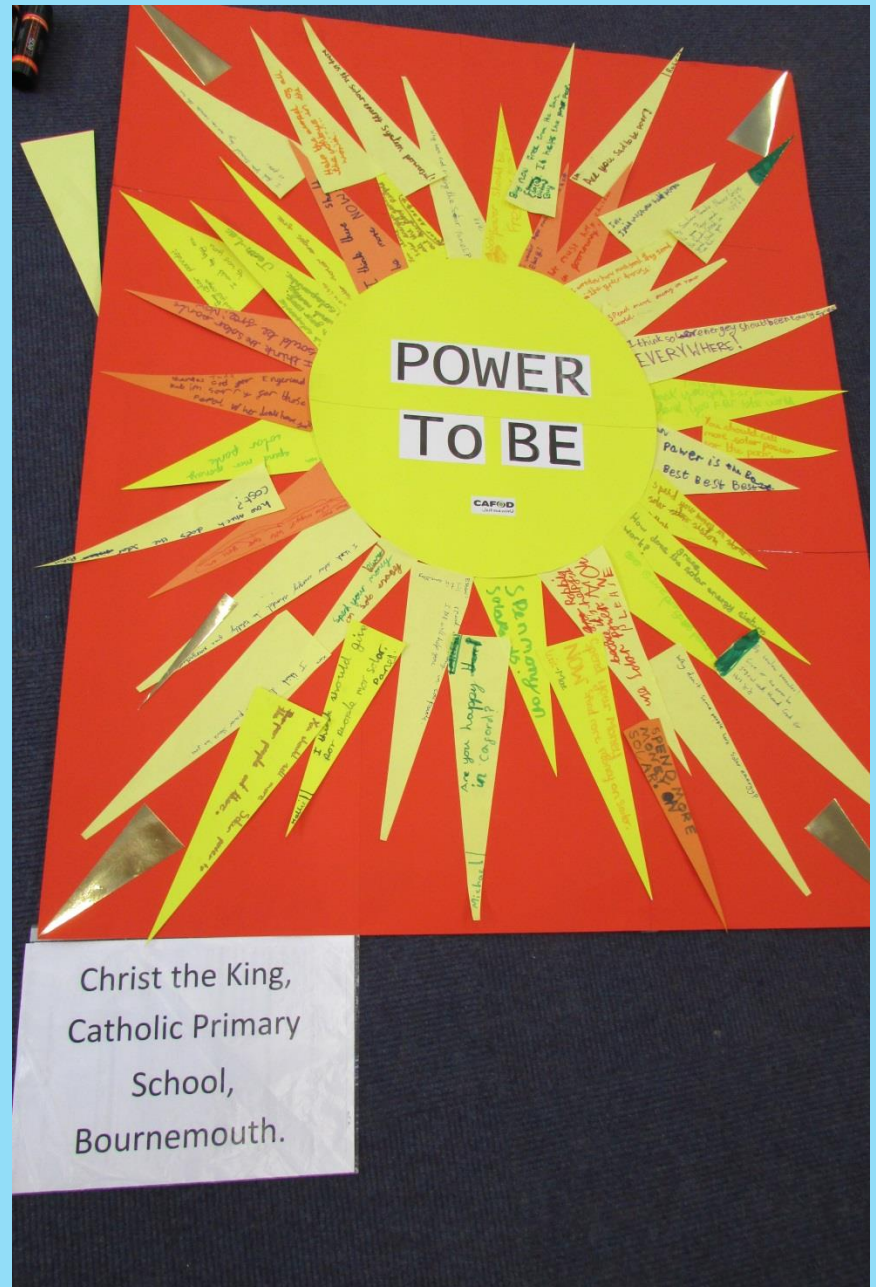

Bea Taylor came in on behalf of CAFOD to explain about issues on Global energy.

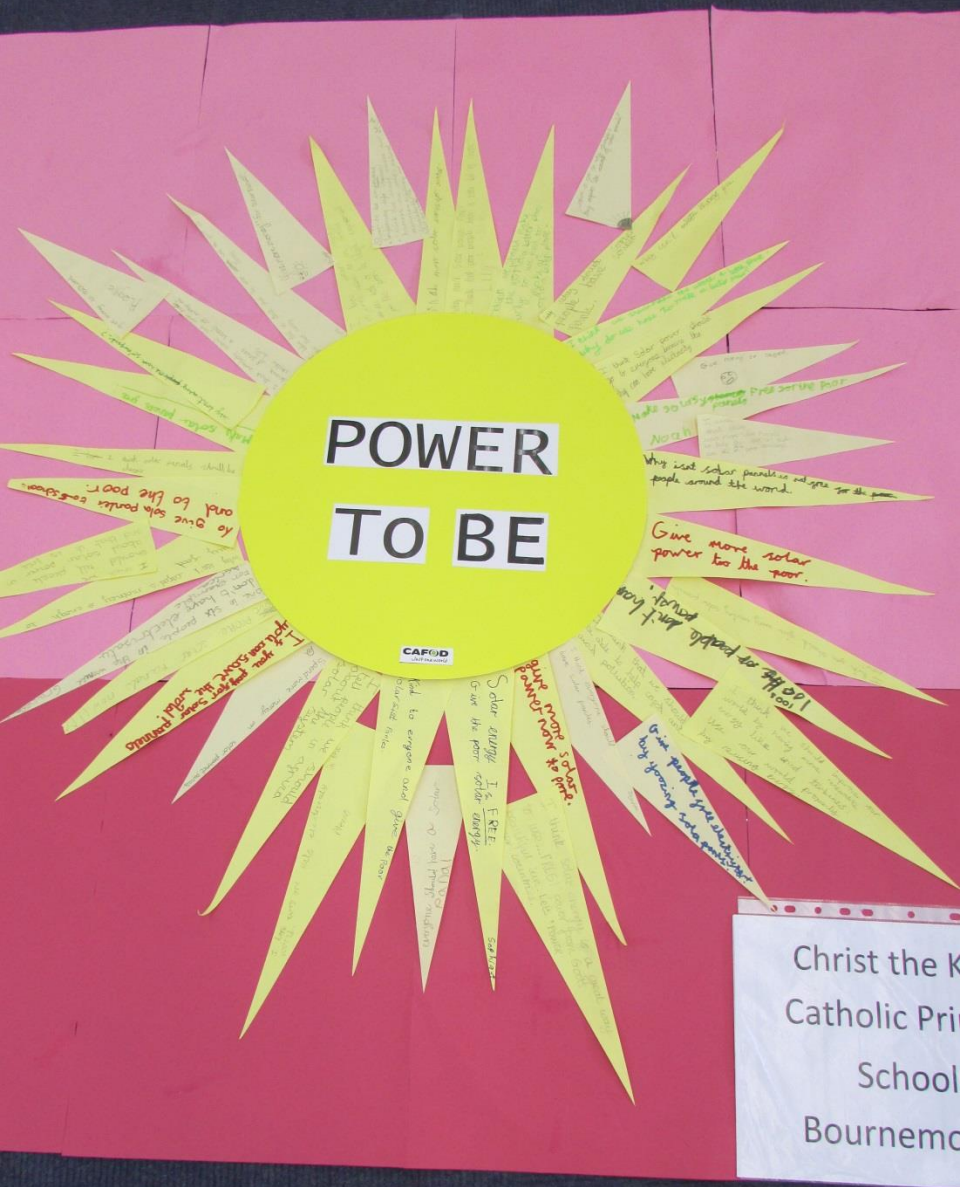

CAFOD and her partners are installing solar power in communities in need and making a big difference.

The children each sent a message to the Global North by writing on sunrays which symbolise our message shining out to the world.

A Year 2 child wrote:
“Why aren’t solar-power
systems free for the
Global South?”

Luis (Year 6) said:

“It’s important that the global South gets to use solar energy”

Emilia said, “We’ve got to say what we think”
Callum chimed in, “It’s good to express my opinion”
