

## Christ the King Year 6 Spring 2 Newsletter

Learning together in faith, hope and love.

Dear Parents,

We hope you all had a wonderful half term break and your children are feeling refreshed for this half term of learning. It is hard to believe that we are already half way through the academic year. The whole team have thoroughly enjoyed working with your children and we are excited to continue this journey with them.

Our topic focus this half term is Science, specifically electricity and light. We will be completing many practical experiments to gain a rich knowledge and understanding as well as looking at how electricity was invented and key people in the developments of electricity e.g. Thomas Edison. However, we will be linking this topic to our Values and evaluating how we can make better use of greener energy, especially for those less fortunate than us (Justice and Compassion for example).

Whilst we will continue to focus on well-being and PSHE within class, it is important to mention that we now have only this half term to prepare your children as much as possible for the SATs tests, which will be taking place the 9th -12th May. Parent Consultation appointments are still available to book and we can answer any questions you may have at that time. If you need any help booking, please contact us. We will work hard to ensure your children do not become stressed or anxious about these over the coming weeks.

Whilst we will be working hard, we have lots of exciting activities planned including our Butcher's Coppice residential trip in July.

It is great to see so many of you using Dojos to communicate with us, we are sure you agree that it is very easy, informal and allows both us and you to sort any issues out quickly. You are also welcome to chat to us at the start and end of day if you have any concerns. Thank you for your continued support and patience.

We look forward to seeing you virtually at the parent consultations.

Kind regards,

Year 6 team- Mrs Ayton and Mr Cooper.

### Key Dates and Information

- Monday 20th February—INSET
- Tuesday 21st February—children return to school
